

## SERMON NOTES

### Health and Healing

#### Science of Christianity and the Mind

There is a science to be mastered - a science as much deeper, broader, higher, than any human science as the heavens are higher than the earth. The mind is to be disciplined, educated, trained for men are to do service for God in ways that are not in harmony with inborn inclination.

The heart must be educated to become steadfast in God. Old and young are to form habits of thought that will enable them to resist temptation. They must learn to look upward. The principles of the Word of God - principles that are as high as heaven and that compass eternity - are to be understood in their bearing on the daily life. Every act, every word, every thought, is to be in accord with these principles.
